

E. H. CASE, JR.

In the first light of dawn we found an old chest along the shore. Intrigued by our discovery, we eagerly work the lock and latches in search of what lies within.

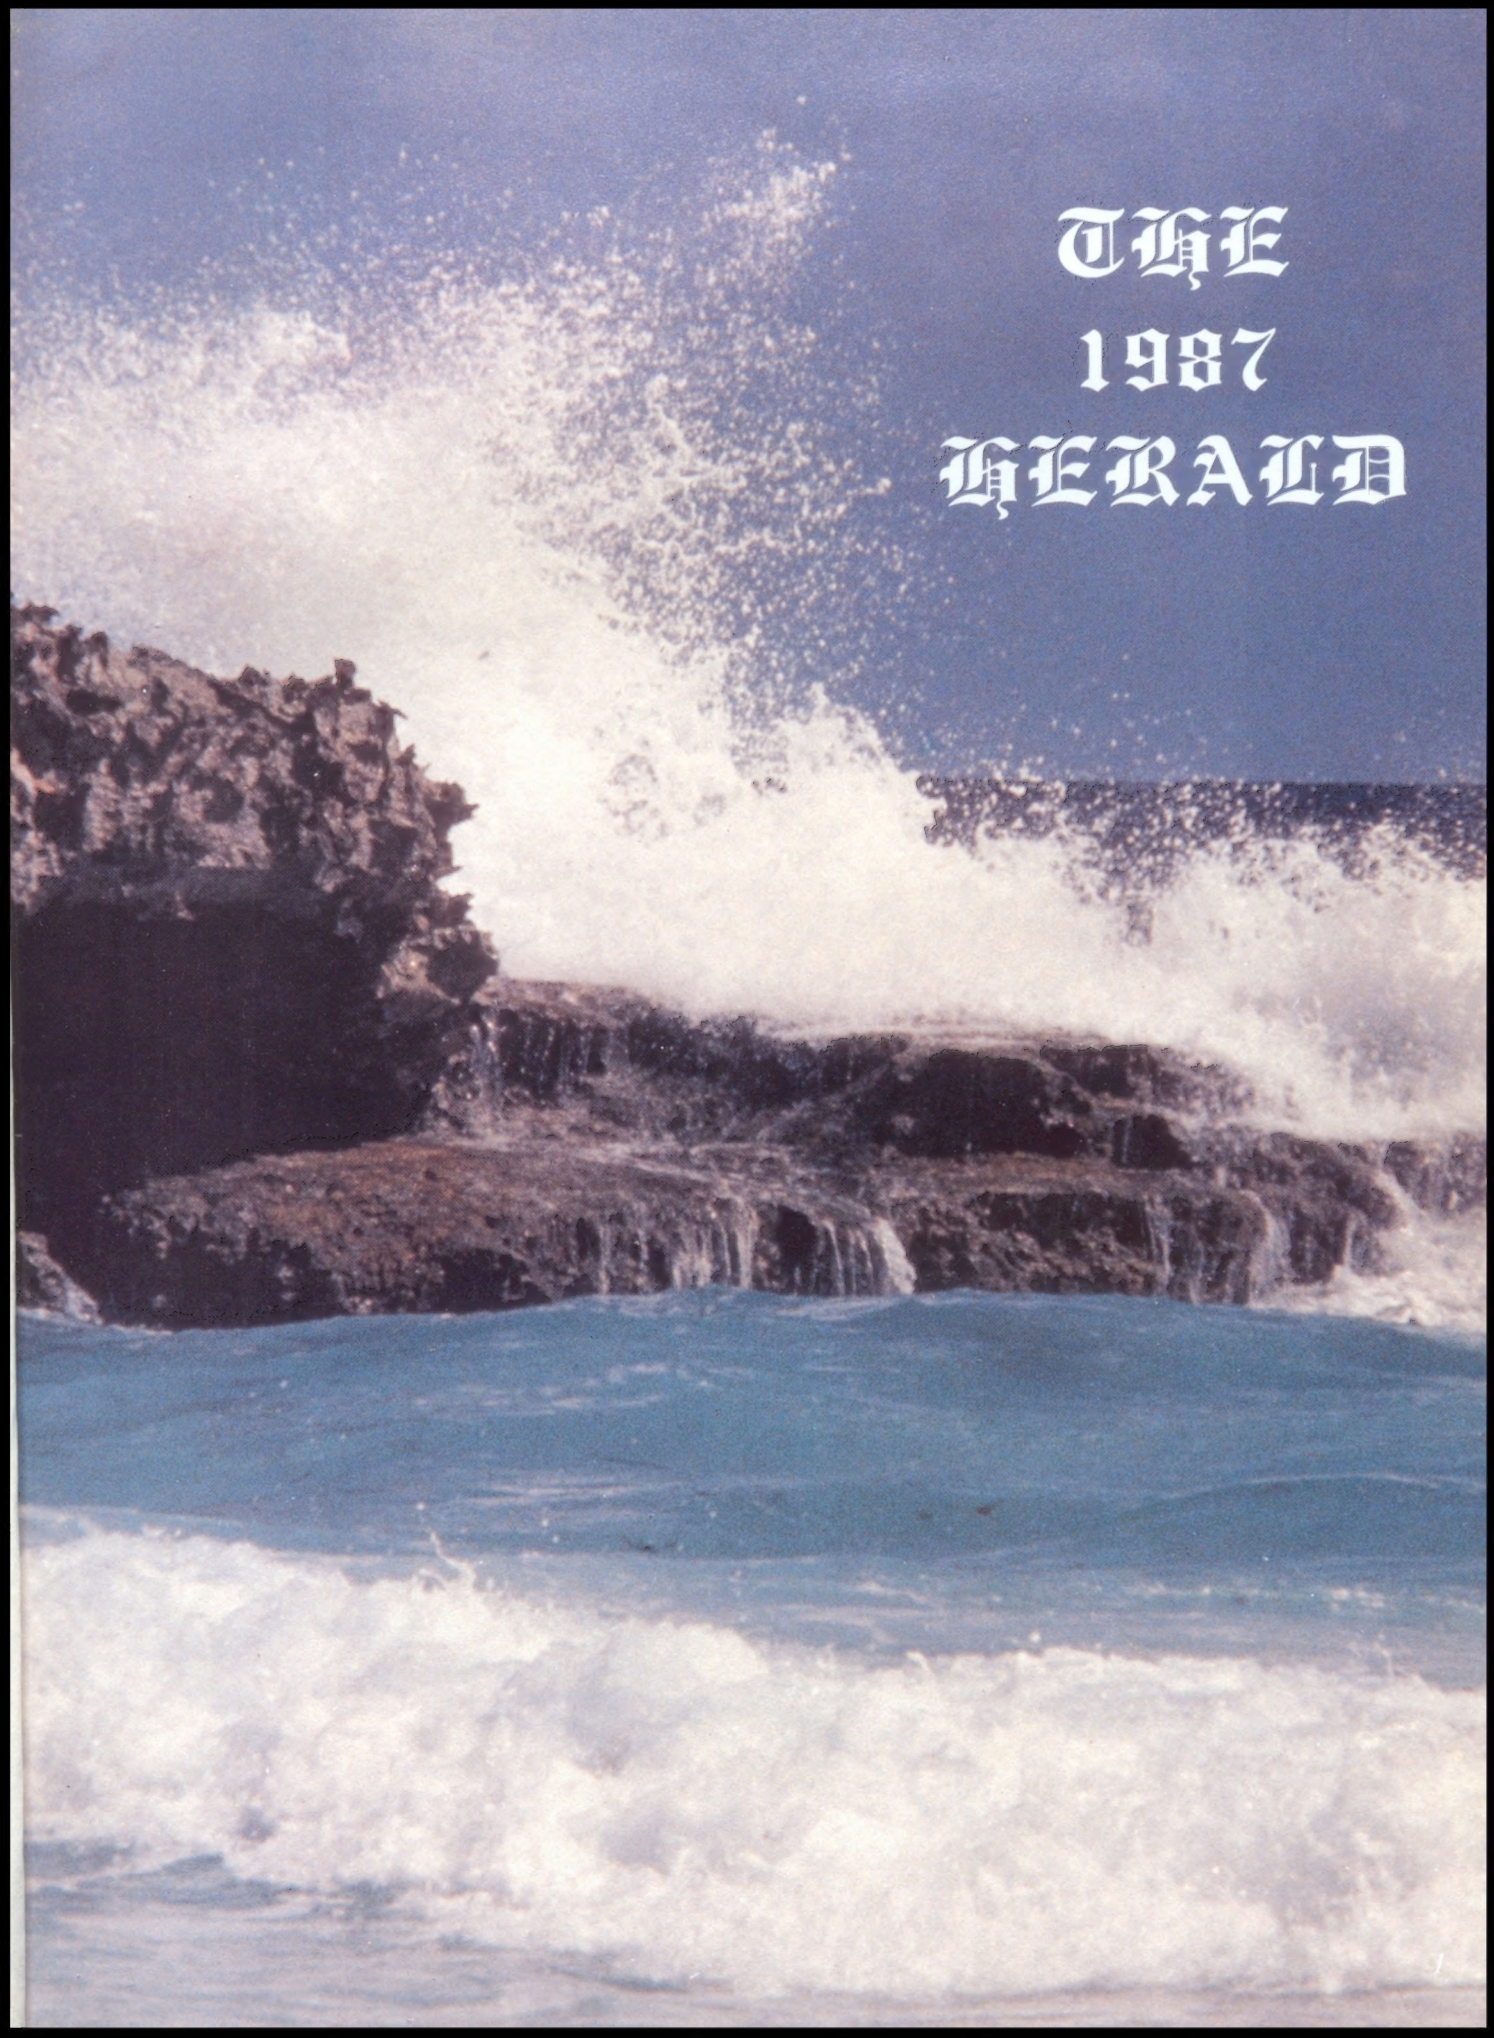

THE  
1987  
YEARBOOK

# In the Crow's Nest

"He is a man who gives up much of his free time in order to help young people." (Jeff Poirier)

"Mr. Borchetta is special because he is involved. He dedicates much time, not only to school activities, but also to many activities which add to the community." (Cathy Lowe)

"Young people are worth being with."

*Frank Borchetta*

Reflecting back upon our voyage, we can see how his friendship and guidance have helped make our sailing smoother for the past four years. His contributions to our lives have been both in and out of school. Because he exerts effort that makes him our friend as well as our teacher, we, the members of the Class of 1987, dedicate our yearbook to:

Mr. Frank Borchetta

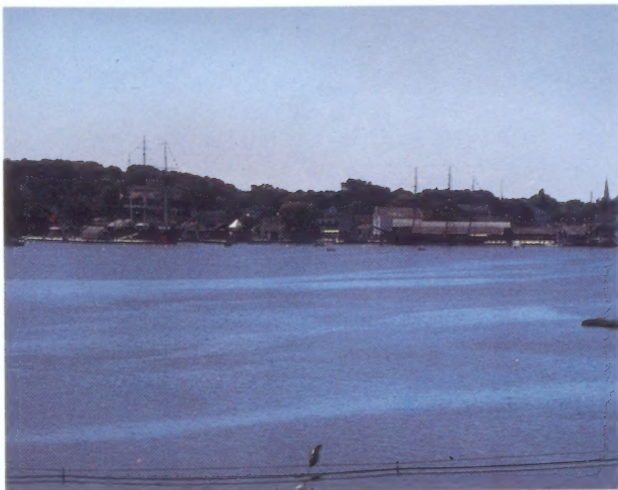

We stand on the  
deck of our ship.  
Looking behind  
we can still  
recognize the  
remains of both  
the stormy and  
calm seas through  
which we have  
sailed;

looking ahead we see a vast, inviting  
expanse of water beckoning us to sail  
onward and explore.

Safe on the deck, with our sails  
furled, we realize that we must  
once again lift anchor — the  
oceans before us are filled with  
the hint of danger as well as the  
promise of hidden treasure.

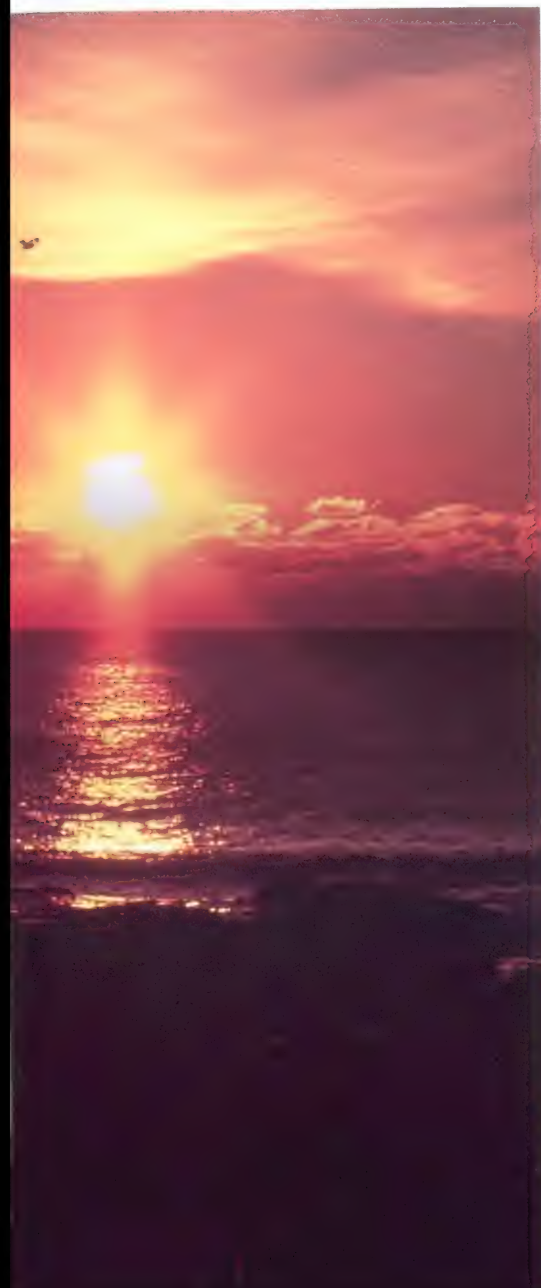

We examine the rudimentary map which our families, teachers, and crew mates have helped us piece together, and we are confident that our past experiences will enable us to navigate safely through the uncharted waters.

New adventures await us. The oceans ahead provide us with countless possibilities and directions. Armed with our newly created map, we are ready to embark upon our voyage.

Our final destination will become clearer with each passing year; our ship will be enriched with each newfound treasure; our spirits will be renewed with each new conquest.

# New Man at the Helm

Raymond Grasso came to Windsor Locks High School last September as a man impressed by the closeness of the school and community, and as a principal who would affect our environment and personal lives. Excited about his new position and looking forward to the work which lay ahead, he was prepared for the challenge.

In the past year Mr. Grasso has become a vital part of our school, helping us grow as well as growing along with us. Sharing both our good and bad times, he has been a constant source of encouragement. The man and principal came here hoping to make a difference, and he has.

Mr. Grasso, we thank you for all the knowledge you have shared with us, and we wish you well in your future years as principal.

We each leave school with our own special memories. For some of us the memories are of friends, parties, and relaxation; for others, sports, teachers, and homework. Whatever we have done in the past four years, we have found treasure. Familiar events — walking through the halls, talking with friends, games, and weekends, leave an impression when they are gone. Sometimes, however, we were so buried in our everyday routine that we failed to recognize the less visible, more valuable treasures we had been continually gathering —

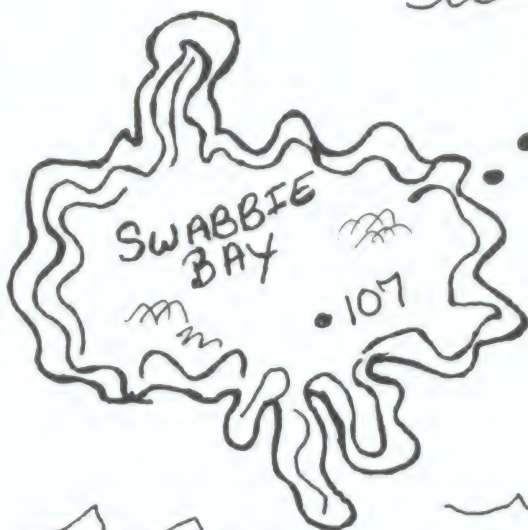

knowledge, experience, responsibility, and a growing sense of self worth. We now realize that these are the uncovered treasures of high school. We are ready to search for those which still remain hidden. We can't search by staying where we are.

“To find treasure, you must take treasure with you.”

Alain Kessi

It had always been my dream to get to know America as an inhabitant, and not merely as a tourist in a rush to see all fifty states in two weeks. Now, here I am, a student in Windsor Locks High School. I am having a lot of fun participating in school activities and making new friends, and I really begin to feel at home. I will probably feel a little homesick all my life: as long as I am in Connecticut, I will long for my home country, and when I am in Switzerland, I will miss America. And when in June the school year ends and I return to where I came from, we will recall the memories we share of this wonderful year full of excitement.

Alain

Looking back upon the last year of our voyage, we have been enriched by the presence of a new shipmate. He has come from a different port bringing with him stories of a land somewhat different than our own. The time that we spent together has been short, but memorable. Now that our journey has ended we unfortunately must part. Alain, we will miss you and hope that someday we will meet again.

### What is a Bargain?

Beware of advertisements which claim huge savings on diamonds. If a diamond is sold at a "bargain" price it is usually because it is an inferior gem. Our membership in the American Gem Society is your assurance of honest value. It costs no more and often less to buy your diamond from a reputable firm that cares about you.
